COURSEWORK

Data Structures
Algorithms
OOPS
DBMS
Computer Networks

CODING SCORES

LeetCode: Problem Solved(300+)

GFG: Score (1250+)

PERSONAL PROJECTS

Bulk File Renamer
Link: Project

- Built JavaScript tool with **CLI (Command Line Interface**) for efficient bulk file renaming.
- Added user **review option** to ensure accurate file renaming process.

Online Contest Website
Link: Project

- Developed a **unified web application** featuring programming contests from diverse platforms.
- Helped **100+ students** by bringing programming contests together on one website for better learning.
- Tech used are : **HTML, CSS, Javascript.**

Virtual Paint
Link: Project

- Built **real-time** virtual paint system in **C++** using **OpenCV.**
- Enabled dynamic drawing with diverse color options.
- Applied **computer vision methodologies** to interpret webcam movements into responsive drawings.

CERTIFICATIONS

- Object-Oriented Data Structures in C++. **(Coursesra)**
- The Full Stack, offered by **META. (Coursera)**
- HTML, CSS, and JavaScript for Web Developers. **(Coursera)**
- Sensors and Actuators. **(NPTEL)**

ACHIEVEMENTS

- 3rd/ 100 in hackerEarth contest in my university.
- Solved 350+ problems in **GEEKSFORGEEKS**
- In charge of organizing sports activities for approximately 80 students in 2019.
